Jaquar[®]

experience bathing

jaquar.com

REFRESH STORY

50 years of leadership in the bath fitting industry, producing around 45000 faucets a day, and every year adding half a million happy new customers, is a reflection of Jaquar's iconic **Premium brand** status. To keep Jaquar timeless and in line with our vision, the repositioned Jaquar caters to the new age customer who aspires for complete and coordinated bathing solution. Thus we are moving away from Jaquar - the faucet brand to Jaquar - the '**complete bathing**' brand. Jaquar offers world class faucets, sanitaryware, wellness products, shower enclosures, flushing systems, water heaters and lighting.

NEW BRAND

The new brand celebrates the past while striving to actively shape the **future**.

The tagline is essentially the **brand promise**. The emphasis paid to the "**experience**" of owning and using Jaquar products.

Jaquar[®]

experience bathing

JACUAR MEANS TRUST

500,000
happy new customers
every year

- 50 years of leadership
- 1000 crore group
- 60% + market share

The Technology behind the Art

No-Bacteria Zone

GermiGuard is a powerful Fluoro-Polymer coating of 20 to 100 nanometer thickness. It is applied on Jaquar WCs and Wash Basins through a special process and provides following benefits. It transforms your Jaquar sanitaryware into a truly green product.

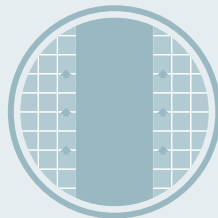

- It forms a strong hydrophobic shield which prevents the build-up of bacteria and germs.
- Ideal for Indian humid weather conditions.
- Renders the surface durable and highly repellent to dirt, oils and liquids.
- Dirt simply slides off the surface, thus preventing staining.
- Facilitates easy removal of hard water deposits.
- Remains cleaner for longer.
- With GermiGuard, you can now use a gentle bathroom cleaner, instead of a harsh, acid - based one. This means your water pipes and drains are not subject to harsh acid based cleaners. This extends the life of your water pipes and drains.

Clean and Odour-free WCs

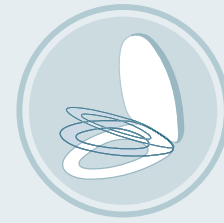

The interior portion of the traps of water closets are glazed.

- Ensures the trap does not collect dirt or gives out odour.
- Prevents dirt from sticking inside the trap.
- Facilitates easy flushing and waste removal.
- Ensures clean and odour - free bathroom.

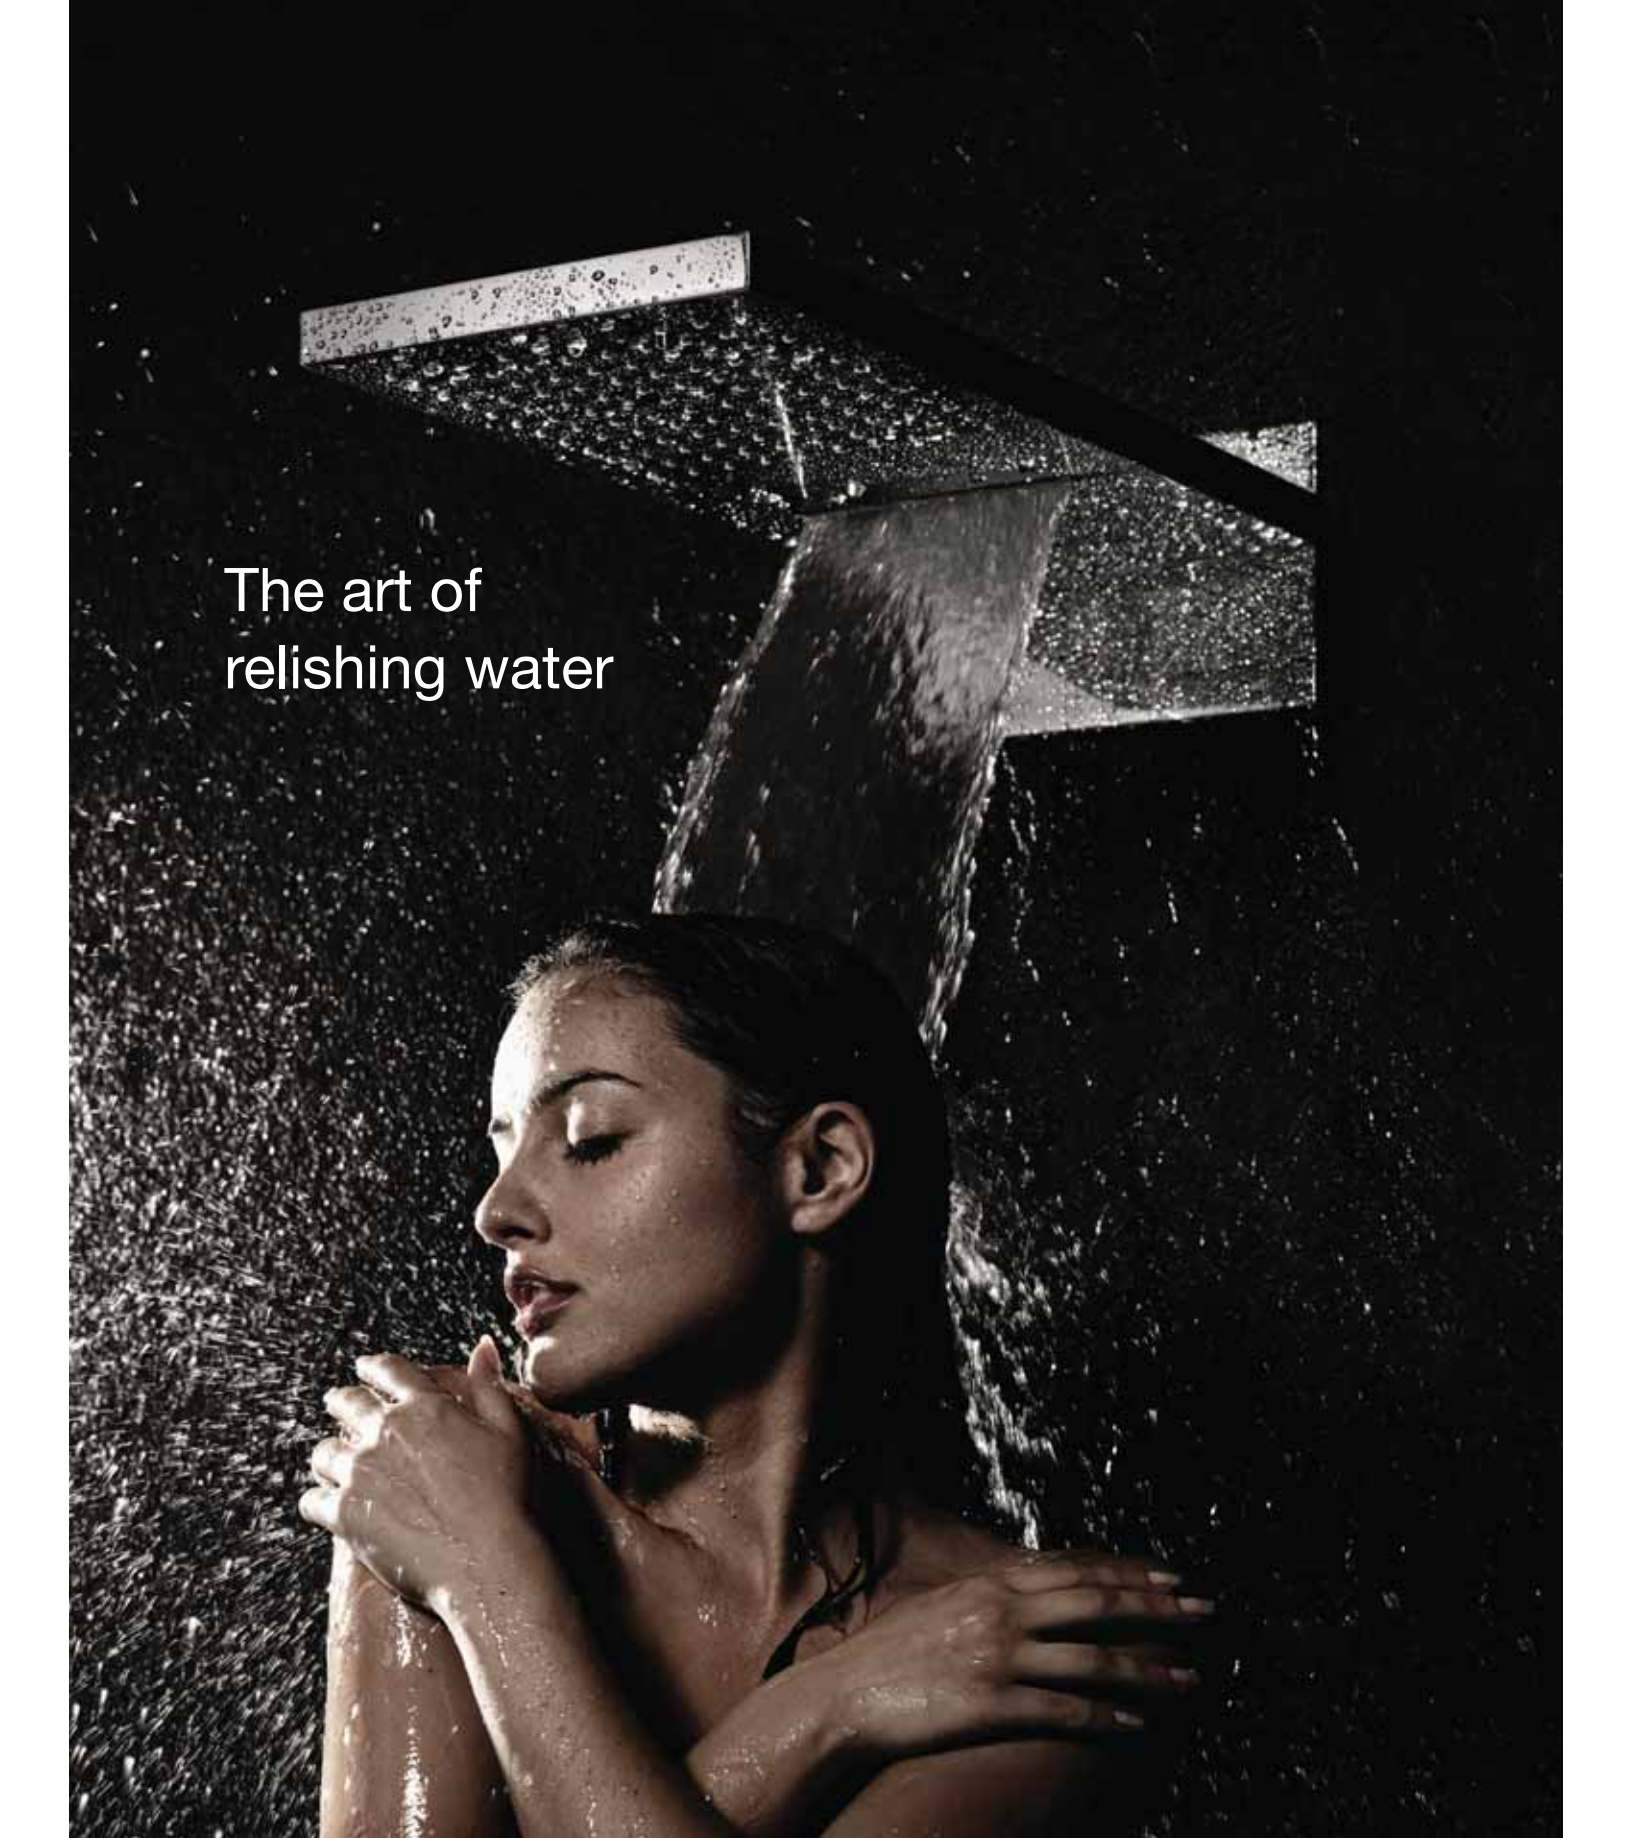

Easy Installation

- Flatness of parts getting fixed to the wall.
- No gaps between the wall, floor and the fitting portions of the sanitarywares.
- Perfect fitting for a perfect look.

Soft Closing Seats

- Load bearing capacity of over 150 Kg (seat and bushes).
- Shape and texture of the seats unaffected by temperature variations.
- Does not absorb room temperature therefore the seats are neither too hot nor too cold to touch.
- Surface is resistant to stains and strong dyes.
- Does not deform or peel-off with use.
- Special buffer oil is used in the hinges for lasting functionality.
- Soft-close action to eliminate noise of falling of the cover. This is guaranteed for 2 years.
- Adjustable speed of falling of the cover within a range of 1 to 15 seconds.
