

A woman in a black bikini is showering in a modern bathroom. She is looking up at a large rainfall showerhead that is spraying water. The showerhead is mounted on a dark wall. To the right of the woman, there is a digital touchpad control panel on the wall. The panel has a small display screen at the top and several buttons below it. The overall lighting is dim, creating a relaxing atmosphere.

## RIGHT AS RAIN

Jaquar—one of India's most rapidly growing bathing solutions companies—has launched the revolutionary 'Showertronics iV6' system under its luxury brand Artize. It is an intelligent water mixer system that maintains the water temperature and flow rate during showers. The waterproof touchpad, allows you to choose the shower mode, control the temperature and manage water flow. The pre-selected water temperature remains constant whenever you enter the shower, ensuring no risk of scalding from sudden temperature increases or surprising shocks when the temperature drops.
