

# Khimji's BMD takes part in Jaquar's Mideast launch

Khimji's Building Material Division (BMD), under the flagship of the Infrastructure Group of Khimji Ramdas, recently participated in the launch of Jaquar in the Middle East - a leading name in high quality bathroom products is known for faucets, showers enclosures and wellness products in its elaborate yet coordinated portfolio. KR is the distributor of Jaquar in Oman.

The launch was attended by senior officials of Jaquar, Khimji Ramdas, their consultants and clients from Oman among people from other Gulf states. The launch at Emirates towers ballroom, witnessed about 200 invitees from across the spectrum where Product novelties were also displayed to showcase them to the valued invitees.

MG Chengappa, senior gen-

eral manager, BMD, Khimji Ramdas, said, "We have been serving the growing needs of the industry for over 35 years in Oman.

"This official launch will further strengthen our foothold in

the Middle East by furthering the seminal contributions that we have made to the development of Infrastructure in Oman. This partnership will further strengthen our commitment to meet the growing infrastructure

requirements in the country. Good design means not just added value for the user but is also an important aspect in terms of sustainability.

"Jaquar's USP of Sense meets Design has encouraged us and we take pride in being the sole distributor of its products in Oman. Jaquar with a vast and unbeatable portfolio to its credit has a dominant position in commercial, residential, public institutions and hotels across the world. Indeed this launch has enabled us to be ready for the huge investments planned in the Infrastructure sector here."

The Building Material Division of Khimji Ramdas, has been associated with international brands for the last several decades in various product categories.
