

NEW FAUCET

Jaquar Group has launched an exquisite designer product, **FLO²** under its luxury brand **Artize**. The new Artize FLO² is a pull-down kitchen faucet, which is tall and slender with an ability to provide water, wherever you pull it down to, and a choice of flows to make your cleaning chores easier. The intuitively simple technology comes equipped with a 360° spray head that provides smooth operation and easy maneuverability. The high arch spout offers superior clearances for filling pots and a compact two functional sprayhead with spray and aerated flow. TumbleRain is one of the most innovative green product for the bathroom. It comes with features like Automated Tumbling. It ensures perfect hygiene in the system, it is equipped with functions to check the presence and growth of bacteria.
